

CM021-SB-2 | Adhesive Dash Mount with Swivel Base

1. Choose the best location on vehicle to place the mount.
Do not place mount in or near an air bag deployment zone or where it will obstruct view of the road.

2. Clean off dash surface with alcohol cleaning pad and let dry.
Do not attempt application of the dash mount if the temperature is below 68° F (20°C).

3. Slide T-tab(s) into the T-slot(s) located on the back of the device or device holder. (Sold separately)

4. Remove paper liner from adhesive on base and affix adhesive to the dash. Let stand (at room temperature) for 24 hours before using.

Removal of Dash Mount

To remove the dash mount completely, use a cotton swab dipped in isopropyl alcohol. Simply peel up a corner of the dash mount adhesive and swab under the pad while gently pulling until the adhesive begins to release. Remove slowly. No damage will occur from the adhesive if it has been properly installed and removed per these instructions. You may see a slight discoloration between this area and other parts of your dash due to fading caused by the sun.

5. Loosen the base cap by turning it counter clockwise and slide the slotted metal shaft of the pedestal onto the base. Turn base cap clockwise to tighten pedestal onto base.

Can be mounted horizontally or vertically.

6. Bend pedestal to desired angle.

WARNING:

Do not install Arkon products over an airbag cover or within the airbag deployment zone. Arkon Resources, Inc. assumes no responsibility of liability for injury or death as a result of car crashes and/or airbag deployment.

Arkon Resources, Inc. is not responsible for any damages caused to your car, your device, or yourself due to the installation or use of the pedestal mount.
